

Spring 2013 Newsletter

Spring Vaccines

Now is the time for **spring vaccines** to ensure adequate protection from mosquito borne diseases. If you have any questions about vaccines, please check out our website or contact our office.

Horse Park of NJ Events

This weekend, May 9-11, is the **Jersey Fresh International Three Day Event**. We are looking forward to seeing some of the best equine athletes in the country come to central New Jersey. We are sponsoring cross country fence number seven on the CCI** and number nine on the CIC** courses.

May 23-26, is the **ESDCTA Memorial Weekend Dressage Show**. We are the treating veterinarians at the show and will be there all weekend. Come say hello and join us for some world-class dressage!

Best of luck to all those competing at these events!

New Dental Disease

Last week, **Dr. McAndrews** gave a presentation to forty equine veterinarians from New Jersey and surrounding states on a new dental disease.

We are happy to share our knowledge to help not only the horses we treat, but horses in surrounding areas as well.

Coming Soon

Look out for a **new blog post** coming soon about equine nutrition!
